Laudatio für Reinhard Wilhelm — Saarbrücken —
June 11th, 2006

Just in case you don't know him

Just in case you don't know him, or arrived late :-)

A talent for organization

Scientific Director of the International Conference and Research Center for Computer Science in Schloß Dagstuhl

- Unique and known by every researcher in computer science in the world
- This achievement only would be the best service for the progress of research in computer science

Scientific Director of the International Conference and Research Center for Computer Science in Schloß Dagstuhl

Where you learn most about Reinhard's tastes:

– A friendly place, with highest scientific standards

– Paintings, bicycles, music instruments, french wines, games, literature, good food, library, ...

Organizer of Landmark Scientific Events

A talent for research

Programming

Foundations of programming & languages

Interest and contributions in all styles of programming (imperative, fonctional, logic, parallel, object, text layout) [14, 15, 16, 17, 19, 21, 22, 24, 25, 26], including programming systems [18] and implementations [20, 22]

Algorithm Animation and Visualization

Visualization of computations

Illustrate graphically the run-time/abstract computations of programs [27, 28, 29, 30, 31]

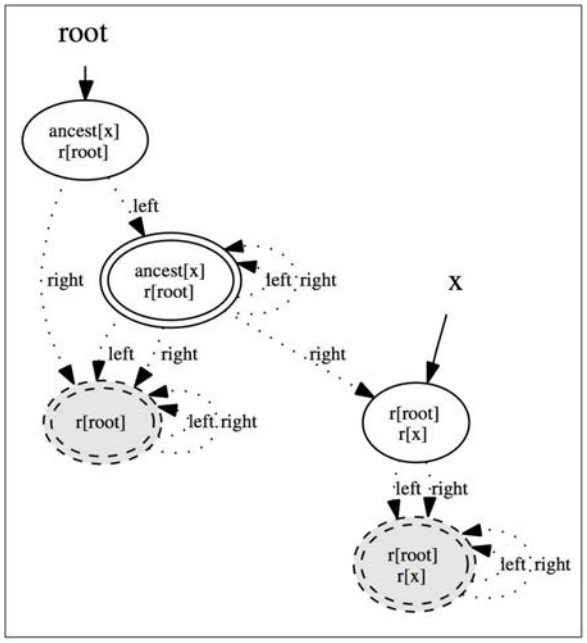

Figure 4: A visualisation graph

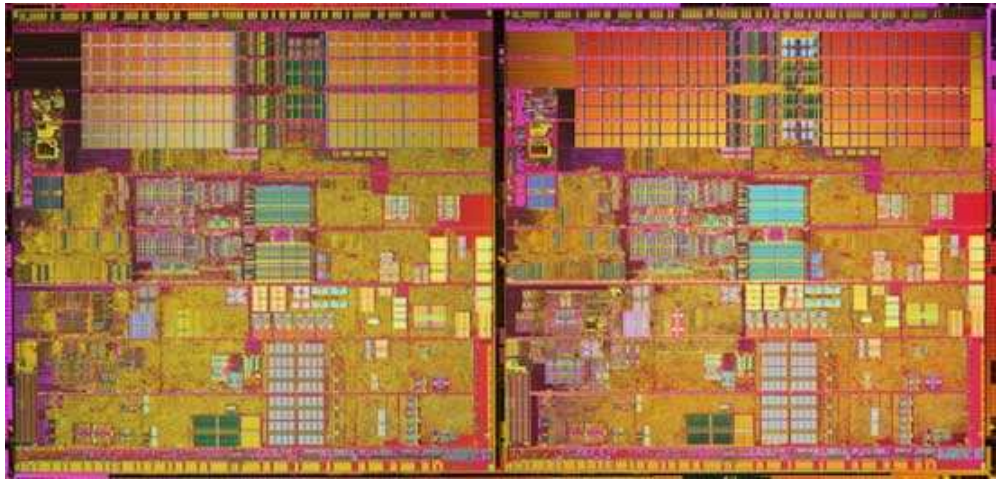
Timing Analysis for Real-Time Systems

Processor models

What is the semantics of processors ? How to describe it ? Which real-time systems are time-predictable ? [82, 83, 84, 85, 86, 87, 88, 89]



References
